IN RE: MVX.COM COMMUNICATIONS, INC.	DOCKET NO. TCU-99-30
--	----------------------

ORDER GRANTING APPLICATION

(Issued November 19, 1999)

On August 24, 1999, MVX.COM Communications, Inc. (MVX), filed an application for issuance of a certificate of public convenience and necessity, pursuant to IOWA CODE § 476.29 (1999). MVX intends to provide local exchange service in the exchanges currently served by U S West Communications, Inc. No objections were filed.

IOWA CODE § 476.29(2) (1999) provides that the local exchange carrier shall not be denied a certificate if the Utilities Board (Board) finds that the applicant "possesses the technical, financial, and managerial ability to provide the service it proposes to render and the board finds the service is consistent with public interest." The Board has carefully reviewed MVX's application and finds MVX has demonstrated that it has the necessary technical, financial, and managerial ability to provide local exchange service. It is in the public interest to grant a certificate to MVX.

IT IS THEREFORE ORDERED:

1. The application for a certificate of public convenience and necessity filed by MVX.COM Communications, Inc., on August 24, 1999, is granted, subject to the requirements that follow.

2. At the time MVX files tariffs with the Board, it shall file a statement that a 2-PIC methodology for dialing parity is available for all customers.

3. At the time MVX files tariffs with the Board, it must give notice to all affected local exchange carriers. Upon approval of tariffs to reflect the prices, terms, and conditions of local exchange service in Iowa offered by MVX and upon approval of maps and other documentation which will define the service territory where MVX desires to serve all eligible customers, the Board will issue a certificate of public convenience and necessity allowing MVX to provide local exchange service in Iowa.
